SUMMARY OF QUALIFICATION

- B.Tech CSE (Gaming Technology) student with strong skills in computer applications and a growing foundation in Java and software development.
- Built an iOS daily routine app "IRLXP", showcasing practical app development skills, creativity, and the ability to turn ideas into functional products.
- A quick learner with strong interest in AI, app development, and emerging technologies, eager to explore and build innovative solutions.

EDUCATION

SRM, Institute of Science and Technology   Chennai,TN
Bachelor of Technology, Computer Science Engineering   May,2029
Emphasis, Gaming Technology

RELEVANT COURSEWORK

Software Engineering, Designing, Compilers, Modeling, Data Handeling

---

TECHNICAL SKILLS

Programming Languages: SQL, Python, C, Swift
Operating Systems: Windows, Mac, Linux
Database: SQL Server
Software: SQL, MS Teams/Excel/Word

PROJECT EXPERIENCE

IRLXP APP: iOS Application
Developed an iOS app using Swift that allows users to track everyday tasks and
build healthy habits. Implemented task lists, progress tracking, and a smooth
user interface optimized for simplicity and engagement.

AI Agents Project : Kaggle
Built a series of intelligent agents that can reason, plan, and interact with tools. Completed
a structured multi-step Kaggle project involving architecture breakdowns, markdown
documentation, and implementation of search, planning, and tool-using agents.
Strengthened skills in Python, problem decomposition, and modern AI agent design.

CERTIFICATION

Deloitte Data Analytics Certificate
Certified by Deloitte in Data Analytics, demonstrating proficiency in analyzing datasets,
identifying trends, and generating actionable insights for business decision-making.
